

## **Paul Hedrick**

Senior Vice President – Finance and Administration  
Chief Financial Officer

Since 2010, Paul Hedrick has served as Chief Financial Officer for the Endocrine Society, guiding the strategic and financial policy for the \$30 million organization. Most recently, Hedrick helped the organization navigate the coronavirus pandemic, protecting them from financial losses associated with disruptions and pivoting to successfully produce the organizations first online annual meeting that garnered record attendance. He also oversaw the implementation of enterprise-wide association management system to enhance e-commerce experience across platforms and the website build of both the patient facing Hormore.org and member facing Endocrine.org.

Prior to this, Hedrick served as Controller for the Service Employees International Union (SEIU) where he was fully responsible for the internal financial and external financial reporting for the organization representing nearly two million organized workers in the healthcare, public services and property services sectors. Hedrick has also held financial management roles at the Corvis Corporation, Verizon Communications and the Seafarers Benefits Plan.

### **Education**

Mr. Hedrick earned his B.S. from Virginia Tech, his MBA from George Mason University and M.S. in information systems technology from the George Washington University.

### **Association of American Railroads**

America's freight railroads operate the safest, most efficient, cost-effective and environmentally sound freight transportation system in the world — and the AAR is committed to keeping it that way. AAR is the world's leading railroad policy, research and technology organization focusing on the safety and productivity of rail carriers. AAR members include the major freight railroads of the U.S., Canada and Mexico, as well as Amtrak.
