# ***THE SAFEST WAY TO MOVE FREIGHT OVER LAND***

Thanks in part to technologies like train inspection portals and cracked wheel detection, the Class I mainline accident rate is down 42% since 2000, and the last decade was the safest ever, with the 2023 hazmat accident rate at its lowest ever.

## ***\$23B ANNUAL INVESTMENTS***

Capital spending as a share of revenue for freight railroads is six times what it is for the average U.S. manufacturer.

## ***HIGH PAYING JOBS***

The average Class I railroad employee earns \$135,000 to nearly \$190,000 annually in pay and benefits.

## ***MOVING ONE TON NEARLY 500 MILES ON ONE GALLON OF FUEL.***

On average, railroads are three to four times more fuel efficient than trucks, and one train can take hundreds of trucks off the road.
