

AAR MEMBERS, AFFILIATES & ASSOCIATES

FULL MEMBERS

AAR's Full Membership is available to Class I railroads organized under the laws of the United States; other railroads may be admitted as full members with AAR Board approval. For railroads meeting a certain revenue threshold, full membership might also include a rotating seat on the AAR Board of Directors. Full membership dues are based on revenue.

- [Ferrocarril Mexicano, SA de CV \(Ferromex, Grupo México Transportes\)](#)
- [Ferrocarril y Terminal del Valle de Mexico, SA de CV \(Ferrovalle\)](#)

RAILROAD AFFILIATES

AAR's Railroad Affiliate Program is available to non-Class I railroads, commuter railroads and railroads located outside of North America. As a railroad affiliate, you have a voice in the operations and the future of the freight and passenger rail industry. With public interest in rail transportation at an all-time high, both freight and passenger carriers will benefit from this program. AAR's affiliates are led by the Affiliate Executive Board (AEB). The AEB selects affiliate representatives to serve as voting members of select committees reporting to AAR's Safety and Operations Management Committee.

- [Trinity Metro](#)
- [Virginia Railway Express](#)

ASSOCIATES

AAR's Associate Program is for every business that depends on the continued strength of America's freight and passenger railroads. Through the Associate Advisory Board (AAB), all associates enjoy a formal structure for the representation of their views within AAR — one that enables them to contribute their input and expertise to operational decisions. All associates vote for members of the advisory board.
